Wyoming Sugar Company

March 31, 2026

IMPORTANT PAYMENT INFORMATION

Dear Member,

We anticipate receiving the Pile Loss Grant funds around the middle of April and with our systems and great accounting staff we will be able to pay out these funds to the growers within a day. If you will recall this is a per ton payment for pile loss associated with the 2024 crop. To be eligible for this payment you had to sign up and agree to carry crop insurance for two years going forward. A few of our growers did not sign up so there will be a slight increase in the per ton amount to $1.41 per ton (there is no quality factor).

We finally received the initial paperwork for Economic Aid. It will take a few months to finalize the grant and for the funds to be distributed to the Company. The payment will be on a per acre basis for the 2025 crop. The anticipated amount is just over $120.00 per acre. We will keep you posted as this moves forward. The funds will be paid out as soon as possible once received. Because our system is set up to account for tons, it may take more than a day for the turn around. Also, I want to remind all growers that you will be taxed on these funds.

The April Beet Payment will be processed on or before the 17th of April and in you accounts by the 20th. The payment will be 10% of a $50.00 per ton payment adjusted for sugar quality and for the applicable district the leafhopper deduction will be applied, as well as any true up on freight. Additionally, the April payment will have your automatic deduction for the 2026 ASGA PAC contribution, if you have signed up.

I would like to discuss the ASGA PAC contribution more. We have not had strong use of the option to have contributions automatically deducted from your April beet payment. With the importance of the lobbying work being done in DC this contribution is more valuable today than it has ever been. All growers will see a $120 plus per acre return on their contribution and, for most growers, it will be closer to $160.00. This Spring you can see a very tangible and impressive return on a $5.00 per acre investment in the ASGA PAC. In addition, these funds are needed to ensure that we have a functioning sustainable Farm Bill with a sugar program. And more urgently, the ability to solve the Tier II sugar import situation that is dramatically affecting prices and threatens the long-term future of our industry requires that our message be heard in D.C. and action is taken. The simple fact is that these PAC dollars help our “Champions” stay in office and ensure that our industry and way of life is protected.

In December before our ASGA rep, John Snyder, and other sugar growers from around country flew into D.C., "sugar" was not included in the Economic Aid package. Their work, which is made more effective with PAC dollars, changed that outcome and our Company (Grower/Members) are better positioned to withstand this economic whirlwind, as a result.

I may be stepping out of my lane, but I ask you to sign up for the automatic PAC deduction, so it can be in place before the April payment and ensure that we are doing our part for the industry. Wyoming Sugar Company has developed a reputation of "Punching Above its Weight," your PAC contributions help us do just that - IT IS VITAL TO OUR SUCCESS.

The growers produced a great crop last year, we met our processing targets this year and will be able to deliver a $50.00 beet payment, one of the largest in the industry. With the efforts of our sugar representatives in D.C., our ASGA representatives and sugar champions in Congress, we are able to provide additional financial support to offset the effect of low prices and rising inputs. We continue to Punch Above Our Weight. Together we can keep this Company moving forward. WE GET BETTER EVERY DAY.

Contact our Accounting or Ag departments right away to get the Auto-Deduct Form.

Respectfully,

Michael D. Greear
President & CEO

The link to the Auto-Deduct form can be found in the text that contains the link to this letter.
