August 19, 2026

Dear Wyoming Sugar Company Shareholder,

We are pleased to notify you that the Economic Aid funds associated with the recently completed Market Disruption Grant will be deposited into your accounts on Friday, August 21, 2026 if you participate in our ACH payment option. If not, checks will be mailed on Thursday, August 20th. We received 100% participation from all of our current members resulting in a $3.44/ton payment based on tons delivered for the 2025 crop.

We appreciate your participation and cooperation throughout the grant process. These funds provide meaningful support to our grower members during a time when increased costs and market conditions continue to place pressure on agricultural operations.

Thank you for your continued partnership, dedication, and commitment to Wyoming Sugar Company. We are proud to work alongside our growers and remain committed to supporting the long-term strength and success of our cooperative and the sugar beet industry.

Sincerely,

Bethany Stiver
